

Solution Requirements (Functional & Non-functional)

Date	31 July 2026
Project Name	Indoor Gardening Services Management (IGSM)
Platform	ServiceNow

Functional Requirements

The following functional requirements define the core features and services provided by the Indoor Gardening Services Management (IGSM) application.

FR No.	Functional Requirement (Epic)	Sub Requirement (Story / Sub-Task)
FR-1	User Authentication	Secure login and logout • Password reset • Role-based access
FR-2	Service Request Management	Create service request • Edit request • Cancel request • View request history
FR-3	Plant Maintenance Scheduling	Schedule maintenance visit • Reschedule appointment • Maintenance reminders
FR-4	Approval Workflow	Manager approval • Request rejection • Approval notifications
FR-5	Technician Assignment	Automatic assignment • Manual reassignment • Technician availability check
FR-6	Service Tracking	Real-time status updates • Completion confirmation • Customer notifications
FR-7	SLA Management	Response time monitoring • Resolution time tracking • SLA breach alerts
FR-8	Reporting & Dashboards	Service reports • SLA reports • Technician performance dashboard
FR-9	Administration	User management • Role management • System configuration

Non-functional Requirements

The following non-functional requirements ensure the reliability, security, performance, and scalability of the IGSM application.

NFR No.	Non-functional Requirement	Description
NFR-1	Usability	User-friendly interface with easy navigation and request tracking
NFR-2	Security	Role-based access control, authentication, and secure data storage
NFR-3	Reliability	Consistent service request processing and workflow execution
NFR-4	Performance	Fast response time for request submission, approval, and status updates

NFR-5	Availability	System availability during business hours with minimal downtime
NFR-6	Scalability	Support increasing numbers of users, technicians, and service requests
