

Data Flow Diagram & User Stories

Date	31 July 2026
Project Name	Indoor Gardening Services Management (IGSM)
Platform	ServiceNow
Done by	Dega Leela Ramana

Level 0 Data Flow Diagram (Context Diagram)

Level 1 Data Flow Diagram

DFD Summary

The IGSM application receives service requests from customers, routes them through an approval workflow, assigns technicians automatically, tracks maintenance updates, monitors SLA compliance, and generates operational reports for managers and administrators.

User Stories

User Type	Epic	Story ID	User Story	Acceptance Criteria	Priority	Release
Customer	Service Request	US-1	As a customer, I can submit a gardening service request online.	Request is created successfully.	High	Sprint-1
Customer	Maintenance	US-2	As a customer, I can schedule plant maintenance visits.	Maintenance schedule is confirmed.	High	Sprint-1
Customer	Tracking	US-3	As a customer, I can track the status of my service request.	Real-time status updates are visible.	High	Sprint-1
Technician	Task Management	US-4	As a technician, I can view assigned maintenance tasks.	Assigned tasks are displayed.	High	Sprint-1
Technician	Service Update	US-5	As a technician, I can update service completion status.	Customer receives automated notification.	High	Sprint-1
Manager	Approvals	US-6	As a manager, I can approve or reject service requests.	Approval decision is recorded.	High	Sprint-2
Manager	SLA Monitoring	US-7	As a manager, I can monitor SLA compliance.	SLA dashboard displays active metrics.	High	Sprint-2
Administrator	User Management	US-8	As an administrator, I can manage users and roles.	Users and roles are updated successfully.	Medium	Sprint-2
Administrator	Reporting	US-9	As an administrator, I can generate service performance reports.	Reports are generated successfully.	Medium	Sprint-2

The above user stories represent the minimum viable functionality for the first two development sprints of the IGSM ServiceNow application.
