

Empathize & Discover

Date	31 July 2026
Project Name	Indoor Gardening Services Management (IGSM)
Primary User	Indoor Gardening Customer
Done by	Dega Leela Ramana

Empathy Map Canvas

This empathy map captures the perspective of an indoor gardening customer who uses the IGSM ServiceNow application to request maintenance services, schedule plant care, and track service requests.

SAYS • I need someone to maintain my indoor plants regularly. • I want quick confirmation after submitting a request. • Please notify me when the technician is assigned. • I want to know when the service will be completed.	THINKS • Will my plants receive proper care? • Is the technician experienced? • Why is the service taking longer than expected? • Can I rely on this service provider in the future?
---	---

DOES

- Submits service requests online.
- Schedules maintenance visits.
- Tracks request status in the application.
- Contacts support if updates are delayed.

FEELS

- Confident when updates are timely.
- Frustrated when communication is delayed.
- Worried about plant health during service delays.
- Satisfied when maintenance is completed on time.

PAINS

- No visibility into request progress
- Delayed technician assignment
- Missed maintenance schedules
- Poor communication and follow-up

GAINS

- Easy online service requests
- Real-time status tracking
- Automated notifications
- Timely maintenance and healthy plants
